Sunrise and sunset are computed for the visible rising and setting; the observer's eye is 15 feet above sea-level and view unobstructed.

In the tide-columns, H. O. O. is mid-tide; 12 h. O. O. is noon.

Small tides range 1.5 to 2.5 feet rise; average tides, 2.5 to 2.9 feet; great tides, 2.9 to 3.5 feet. Gales from North to East cause extreme high tides.

Scrofula, a Vile Inheritance.

Scrofula is the most obstinate of blood troubles, and is often the result of an inherited taint in the blood. S. S. S. is the only remedy which goes deep enough to reach Scrofula; it forces out every trace of the disease, and cures the worst cases.

My son, Charlie, was afflicted from infancy with Scrofula, and he suffered so that it was impossible to dress him for three years. His head and body were a mass of sores, and his eyesight also became affected. No treatment was spared that we thought would relieve him, but he grew worse until his condition was almost pitiable. I had almost despaired of his ever being cured, when by the advice of a friend I tried S. S. S. (Swift's Specific). A decided improvement was the result, and after he had taken a dozen bottles, no one who knew of his former dreadful condition would have recognized him. All the sores on his body have healed, his skin is perfectly clear and smooth, and he has been restored to perfect health.

For real blood troubles it is a waste of time to expect a cure from the doctors. Blood diseases are beyond their skill. Swift's Specific,

S. S. S. For Blood

reaches all deep-seated cases which other remedies have no effect upon. It is the only blood remedy guaranteed purely vegetable, and contains no potash, mercury, or other mineral.
